To Call for Action on HB 11

- House Bill 11 ("HB 11") focuses on reducing infant mortality in Ohio. The legislation specifically provides increased dental cleaning access for pregnant/post-natal women, increased smoking cessation program availability for anyone in a home with a pregnant woman, increased lead safety information, and ***funding for additional group prenatal care programs in Ohio***. It had more than 50 co-sponsors in the House.
- The House made HB 11 a priority and passed it in June by a vote of 93-0, but the Senate has not yet indicated when or if it will hold hearings on the bill this fall.
- In order for HB 11 to move through the legislative process, it is imperative that Senate Leadership hear from those doing the important work in the field. Please contact Senate leadership and ask them to support HB 11.
